I am happy to know that the Board of Open Schooling & Skill Education, Sikkim is celebrating its first Foundation Day anniversary by organizing a Conference - "NEP 2020: Towards India-Centric Holistic Inclusive & Quality School Education".

It is commendable that Sikkim has established BOSSE, the first of its kind school education board in the country that lays equal emphasis on skill training along with academic education. To accelerate India's growth and development, it is important to bridge the skill gap in the country to meet the new and emerging demands. I am happy that BOSSE is also offering courses in Regional languages to make education inclusive and accessible for all.

The New Education Policy is a transformative document to reorient our education system towards 21st century needs. It gives much needed emphasis on vocational education and lays a roadmap for accessible, affordable and universal education.

I appreciate that BOSSE, in the spirit of NEP-2020, endeavours to provide holistic education to students so that they may grow up to become responsible global citizens and proactive partners in the development process of the nation.

ESS"AGE

I am delighted to learn that the Sikkim Legislative Assembly has enacted the Board of Open Schooling (BOSSE) Act, 2021.

The Board of Open Schooling (BOSSE), Sikkim is a Public Trust registered in the Registrar of Companies, New Delhi and the Government of Sikkim. The BOSSE will cater to the various needs of the divergent disadvantaged groups up to pre degree level including Secondary, Senior Secondary and Skills education. The initiative is laudable and in accordance with the National Education Policy 2020 which lays its focus on ensuring equality of educational opportunities for all that our students are able to meet the educational needs of the State. Various structural and policy changes envisaged in the NEP aim at scaling up the provision and quality of vocational education. Some of these include the development of a National Curriculum Framework (NCF) for School Education, Higher Education Qualification Framework (HEQF), strengthening school education, etc. For Career Outcomes, the Quality Council of Education in India (QCEI) in a hub and spoke model, emphasizing the vocational development of every teacher through common National Professional Standards for Teachers (NPST), Bridging Vocational courses through Open and Distance Learning (ODL) mode, among others. Co-education has accorded the highest priority to skill development so that the young people become employable and successful entrepreneurs. The thrust of Government policy is not only skill up and educate our youth but also to make them able to provide entrepreneurs, the robust engine of our growth story. None of these considered view of practical utility of 'academic knowledge' is quite new and institutions must give priority to skill development. I am optimistic that the BOSSE would concentrate on the concept of Skill India and 'Start-Up

I am pleased the BOSSE is launching its 'Prospectus' for this occasion. I am sure it will be immensely educative and beneficial to two children of disadvantaged groups. I congratulate the Ministry of Education & Skill Development, Sikkim, the Ministry and the office bearers and wish them every success in their laudable endeavour.

MESSAGE

It's a matter of huge satisfaction for me personally that Sikkim Legislative Assembly took a historic step of enacting the Board of Open Schooling and Skill Education (BOSSE), Sikkim Act, 2020. This Board is being set up in public private partnership mode between Regional Education Development Council, Delhi and Government of Sikkim. The Board is designed to provide the much needed requirement of those students who have not been able to complete their school education due to some reason and enable them to acquire a formal school Certificate along with skill training to fulfill their aspiration. I am very happy to note that this innovative step of Government of Sikkim is completely in sync with the National Education Policy, 2020 which lays great emphasis on quality vocational education. The new policy envisages strengthening of Vocational education in a big way by way of professional training of its teachers, setting up of quality labs in schools, promotion of State specific arts and crafts and empowering students with quality vocational education for their bright and meaningful future. The public private partnership model shall ensure that the Board is able to establish linkages with industry and other relevant organizations in a flexible manner for imparting quality and affordable vocational school education to all such students who for some reasons could not complete it through regular schooling. I sincerely hope that the Board will be able to fulfill the aspirations of our young students and enable them to bridge the gap for their school education along with the skill education. Indeed, the Board should successfully transform our students from job seekers to job providers.

I am pleased to note that BOSSE is bringing out its prospectus containing all such details for the benefit of our aspiring students. I am confident that this document shall be immensely useful in guiding and mentoring our young students. I also take this opportunity of complimenting the Regional Education Development Council, New Delhi for having taken this initiative and partnering with Government of Sikkim for this unique initiative.
